ELISA BUSINESS SCHOLARS

2026 Training Session - March 19-22, 2026

About the ELISA Business Scholars (EBS) Program

EBS pairs entrepreneurs from Africa with coaches who are seasoned business leaders.

With their coaches, EBS Scholars attend a training session to learn about how to make their ventures a success and receive business development coaching. They also attend a major conference, the ELISA Business Summit.

For one year after the training session, EBS Scholars carry out a Business Action Plan which helps increase the success of their ventures. The ELISA portal supports this collaboration and enhances their network.
